

PURPOSE

Software is the force behind all the technological progress the world has made. Software developers who produce great code deserve a great career. Our job is to ensure they do.

VISION

To make Career_Stack the most trusted brand in software recruitment in three years, and to grow market share to 5% of the market.

MISSION

To have the highest success rate for placing software development professionals in the UK.

Success will be based on:

- Vacancy to fill ratio
- NPS scores from candidates
- Lifetime of placed candidate at client
- Productivity score of contractors

VALUES

- Deliver Wow through a great candidate experience
- Build open and honest relationships with great communication
- Pursue growth and learning
- We promote the highest quality candidates and help them achieve career dreams
